

Columbian TecTank Solutions for the Potable Water Industry

The Proven Industry Leader in Potable Water.

Unrivaled experience: With over 100 years of history, Columbian TecTank is the firmly established leader in bolted and factory-welded steel tanks and silos. Our integrated project team works with you to ensure your tank is designed to yield the best lifelong value for your application.

- 150,000 tanks delivered in over 125 countries around the world
- In-house engineers with great experience in a wide variety of applications and environments
- Our engineers serve on industry standards committees so we don't just meet industry standards, like AAWWA, we help create them

Highest quality:

- Columbian TecTank's proprietary coatings set the industry standard, offering the strongest corrosion resistance in the market
- Coating system features Trico-Bond EPT[™] coating, providing outstanding and time-proven resistance to corrosion
- Coatings are factory applied and thermally cured in controlled environments, eliminating the risks and costs associated with field-applied coatings
- Our coating system meets NSF Standard 61 for potable water
- Use of only the highest quality materials extends tank life and reduces maintenance costs
- All products are manufactured in ISO 9001:9002 certified facilities

Call (913) 621-3700 today to learn how you can have the best value in potable water tanks.

COLUMBIAN
TecTank
Proven Performance in
Tank Storage Solutions

Best value: Budgets matter! Columbian TecTank's durable construction, superior coating and fast in-field erection means Columbian TecTank tanks offer lower initial and overall life cycle costs when compared to alternatives.

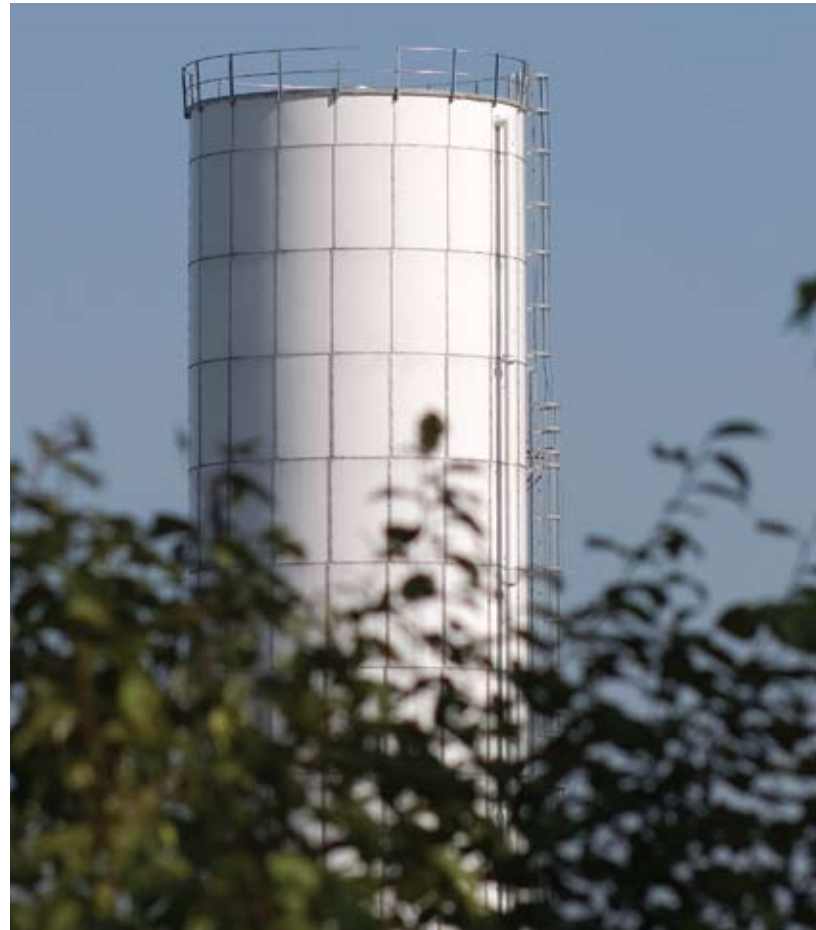

- Modular construction allows panels to be shipped and assembled in an efficient on-site process
- Erection is faster and costs are lower due to the elimination of field welding and coating
- Tanks can be put into service in inclement weather, therefore extending the construction season and reducing costly project delays
- Columbian TecTank's lower initial cost and maintenance requirements help you stay within budget

When you are looking for the best value along with the most experienced, professional and reliable manufacturer for your ground-based storage tanks, standpipes, or fire protection systems, call Columbian TecTank and let us provide you with a solution just right for your project.

**Highest Quality Tank
+ Lowest Maintenance Tank
+ Competitive Contract Pricing**

= The Best Value in Potable Water Tanks
